**Modern and efficient, our Hub Express manages and processes all kinds of international express freight.** With our optimal location, right next to the Air France's parking apron, we dedicate more than 7,600 m<sup>2</sup> space to transit processing of air express and postal parcels.

- **Strategic access to Air France flights**

Hub Express offers fast sorting and transit options for small express and postal parcels, both within and beyond the airport security restricted area.

- **The Hub Express is a one-stop sorting center at the heart of Paris-Charles de Gaulle Airport**

A highly automated sorter, located at the foot of the Air France planes, fully integrated into Sodexi's IT systems.

## CUSTOMS BROKERAGE SERVICES

CASSINI, a French Customs approved tool

Import and export procedures are complicated. They require professional knowledge and mastery of goods declaration and customs clearance processes.

**Sodexi is your customs brokerage expert authorized by the French Customs. Cassini, our e-customs services system, is designed to assist and/or manage all clearance and goods declaration procedures.**

***More info :** customs clearance is the process by which all goods are checked and taxed by customs upon entering a country.*

**More than just a single service, Sodexi offers comprehensive consulting and manages the entire process.**

Some goods may be subject to additional inspections to ensure compliance with the norms of the importing country.

Therefore, it is required to observe the following steps:

- Provide the correct data
- Make a customs declaration
- Meet requirements of different clearance methods
- Obtain the approvals and/or all the necessary permissions to validate the clearance

## THE DIGITALIZATION OF customs formalities via CASSINI

**Sodexi allows you to save time and speed up the processing of all transported goods with utmost transparency.**

The digitalization of customs formalities enables businesses to deal with customs requirements via fully electronic means. Such a process brings several advantages:

- **Better efficiency** : paperless processing saves time and money by simplifying all administration procedures.
- **Better traceability** : enhancing the track and trace of products and goods, helping to resolve disputes.
- **Higher accuracy** : by automating administrative tasks, fewer errors are made.
